McCain X Lazare Partnership Context

The partnership successfully supported Lazare's social mission but remained primarily donation-driven and disconnected from McCain's commercial ecosystem.

- Global leader in frozen potato products
- Presence in 160+ countries
- ~42% frozen fries market share in France
- Brand platform: “Born to Share”

Lazare

- French NGO founded in 2010
- Shared housing model
- Homeless individuals + young professionals living together
- Focus: Dignity, inclusion, social reintegration

€300K

Donated

Main Initiatives

- Financial donations
- Events & chef collaborations
- Employee volunteering
- Digital communication
- On-pack visibility

3-year

Partnership

Key Challenges

- McCain's “Born to Share” positioning was not strongly associated with Lazare
- Emotional brand equity impact remained limited
- Clear KPI or long-term activation framework missing

Strategic Ambition

Transactional
CSR donation model

Shared Value
Partnership

SCQA

From Transactional CSR to Shared Value Partnership

Reworking the McCain × Lazare partnership through retail integration and measurable impact.

S

Situation

- 3-year partnership
- Strong alignment: “Born to Share” × social reintegration
- Existing initiatives: donations, volunteering, awareness campaigns

C

Complication

- Partnership primarily driven by donations and isolated activations
- Brand visibility and emotional engagement remained underleveraged
- Limited operational integration and KPI formalization

Q

Questions

- How can McCain transform the Lazare partnership from a transactional CSR donation model into a scalable retail-driven shared value partnership?

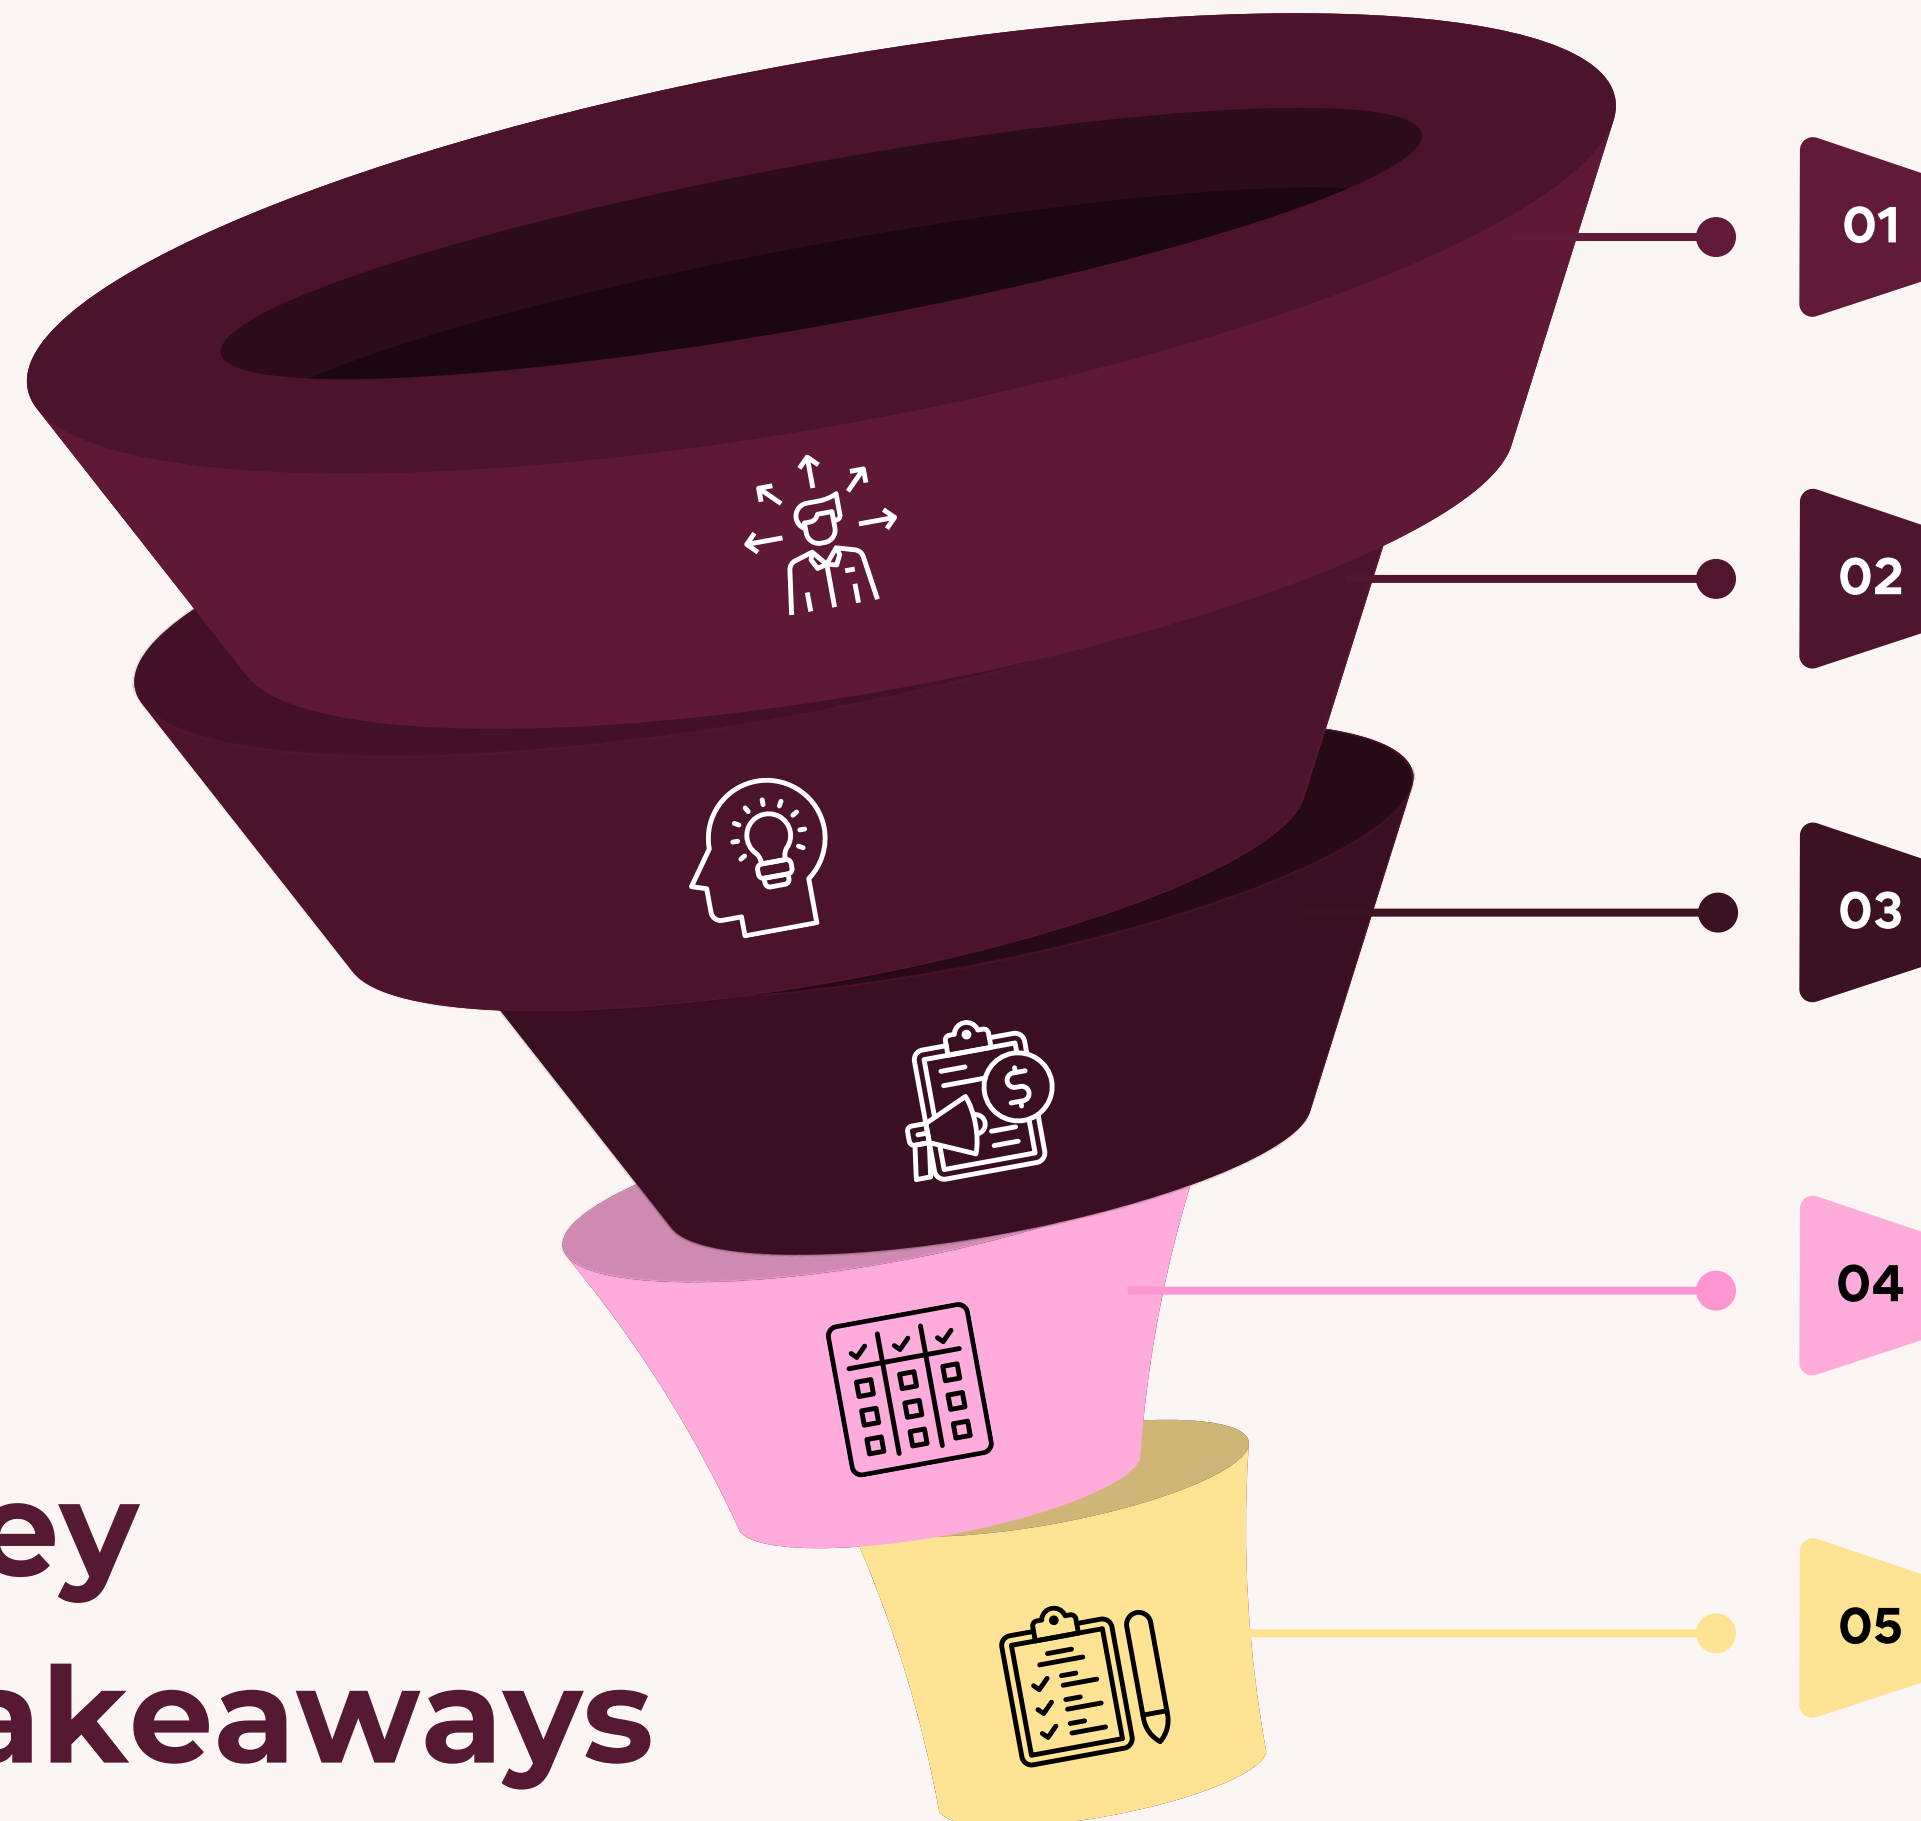

A

Approach

- Strategic benchmark & trend analysis
- Partnership success framework evaluation
- Retail moodboard & activation concepts
- Integrated communication & storytelling framework

Key Takeaways

Can success be measured and governed effectively ?

Partnership performance is currently difficult to track and scale

- Leading partnerships rely on clear KPIs, governance, and recurring impact reviews
- McCain × Lazare lacks a structured measurement framework

Does this partnership follow the trends of a successful partnership ?

McCain × Lazare shows potential, but remains under-integrated

- Strong CSR partnerships move beyond one-off donations
- Retail integration and emotional storytelling drive engagement

Does McCain have the levers to amplify Social impact and Brand visibility ?

High visibility potential, limited execution maturity

- McCain benefits from strong retail reach, storytelling assets, and brand-NGO alignment
- These levers are not yet fully activated

Does McCain have the partnership to scale through the retail ecosystem ?

Strong scale opportunity, but no clear rollout model yet

- Retailers increasingly support measurable cause-led activations
- Scaling requires simple, repeatable retail mechanics

Conclusion

McCain × Lazare has strong strategic fit, but underperforms due to weak KPI governance, limited operational integration, and lack of a scalable retail model.

McCain × Lazare

Inside a Retail Environment

**Use of foresight tools and
benchmarking**

Methodological Foundations

To Future-proof the McCain-Lazare partnership, we deployed a rigorous foresight methodology to anticipate the future of corporate-NGO collaborations.

PESTEL Horizon Scan: Systematic detection of macro-environmental shifts and emerging weak signals.

Global Intelligence Triangulation: Data sourced from the C&E Advisory Barometer (2024-2025), OECD Development Finance, and World Economic Forum.

Academic Validation: Grounded in peer-reviewed academic literature published between 2019 and 2026.

TRANSACTIONAL CHARITY → STRATEGIC CO-CREATION

57%

of corporates globally now cite "deeper problem solving" as their primary reason for partnering with NGOs.

92%

report that non-cash competencies offer more value and strategic impact than financial transfers alone.

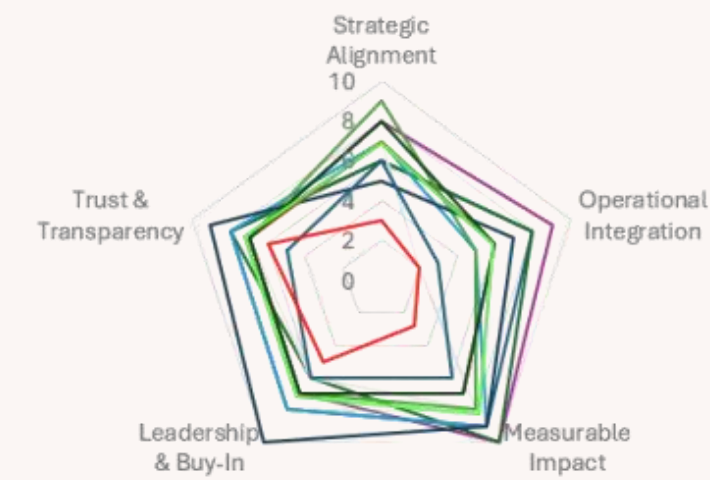

BENCHMARKING AGAINST SIMILAR SUCCESSFUL PARTNERSHIPS ACROSS THE GLOBE

STEPS FOR BENCHMARKING

To benchmark the five criteria, each of the five team members independently reviewed a minimum of four globally recognised corporate-NGO partnerships, assessing how each defined and communicated success. This produced a pool of sixteen partnership reviews across the group. The team then convened in a calibration session in which each member's independent scores and interpretations were presented, cross-examined, and debated until a consensus position was reached. This process ensured that the final scores reflected collective analytical judgement rather than any single perspective

HORIZON SCAN SIGNALS DATABASE · Corporate-NGO Partnerships · April 2026						
#	Domain	Signal Type	Signal Description	Supporting Evidence / Data	Source(s)	Signal Strength
1	Funding Environment	Macro Driver	USAID officially closed July 1 2025; US foreign aid cut 38–82% from 2024 baseline	USAID obligations fell to <1/3 of budgeted resources in FY2025; 560 new awards vs thousands previously (USAspending, 2025)	OECD, Foley Hoag, DonorTracker 2025	Very High
2	Funding Environment	Macro Driver	Global ODA fell 9% in 2024; projected further decline of 17% in 2025	11 DAC member countries announced cuts; G7 nations cutting aid simultaneously for first time in 30 years	OECD DAC ODA Outlook 2025, Atlantic Council Nov 2025	Very High
3	Funding Environment	Market Signal	UK cut ODA to 0.3% of GDP from 0.7% target; Germany, Netherlands, Belgium making similar cuts	Multi-country simultaneous reduction unprecedented; combined with UK defence spending increase	UNRIC Sep 2025, Atlantic Council	High
4	Funding Environment	Emerging Practice	Blended finance emerging as primary alternative architecture post-USAID; AUD 10M Indo-Pacific NGO Accelerator launched Oct 2025	NGOs currently sponsor only 6% of global blended finance deals — significant growth runway	Convergence Finance / DFAT Oct 2025	High
5	Funding Environment	Market Signal	Private philanthropy filling some gap but also under pressure from economic/political uncertainty	Post-USAID: 81 NGOs closed at least one office by Apr 2025; sector contracting while demand rising	The Conversation / Stroup & Hadden 2026	High
6	Funding Environment	Data Point	94% of corporates and 64% of non-profits reported NO change in partnership investment despite macro pressures	C&E Advisory 2025 Barometer, n=130 UK organisations	C&E Advisory / Marketing Week Sep	High

The McCain-Lazare Maturity Gap

Selective Industry Avg.

35.6/50

McCain X Lazare
(Current)

18.8/50

Current State

Invisible to consumer, siloed CSR budget

The Auchan Mandate

Must become a commercial & Category driver

-5.5 pts
Measurable Impact

Retailers require commercial ROI. We currently have no brand equity KPIs or public social impact metrics to justify Auchan's shelf space.

-3.9 pts
Operational Integration

Partnership exists only as isolated campaign events. Lacks a permanent, hard-wired routine in the frozen food aisle.

-3.9 pts
Strategic Alignment

Lazare's cause-first focus has suppressed McCain's brand. The "Born to Share" link to Lazare's table remains invisible.

-2.2 pts
Leadership Buy-In

Historically delegated to CSR. Must be reframed as a commercial growth and retail innovation priority.

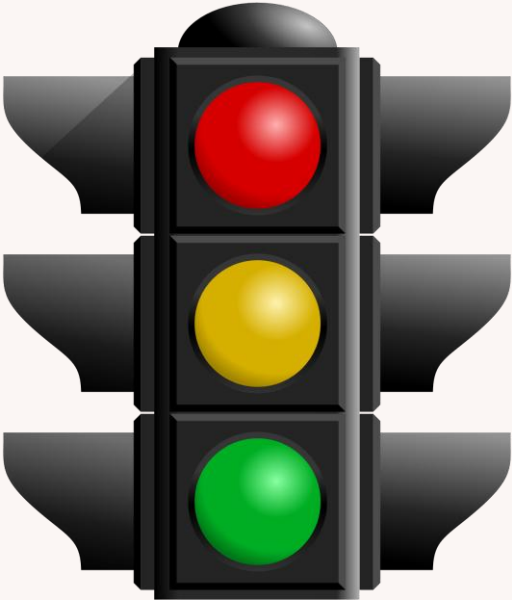

-1.3 pts
Transparency

Financial donations lack clear disclosure mechanics on-pack, risking "greenwashing" accusations from modern shoppers.

SUCCESS CRITERIA FOR A HIGH-PARTNERSHIP BRAND X NGO PARTNERSHIP

	 Strategic Alignment	 Operational Integration	 Trust & Transparency	 Measurable Impact (KPIs)	 Leadership & Buy-In
 	Partnership driven mainly by donations, not shared value	No operational roadmap for retail execution	Unclear communication rights and reporting structure	No agreed success metrics or retail performance tracking	Partnership treated as a peripheral CSR initiative
	Strong values alignment, but weak business integration	Retail ambition exists, but execution feasibility remains unclear	Informal trust exists, but governance remains undefined	Partial KPI measurement focused on either brand or NGO impact	Support exists, but ownership remains siloed
	Clear shared purpose embedded into brand and activation strategy	Partnership embedded into scalable retail activation mechanics	Transparent reporting and clearly defined communication rules	Shared KPI framework across brand, retail, and social impact	Visible cross-functional and executive sponsorship
	Purpose fatigue & CSR washing perception if the partnership feels symbolic rather than structurally embedded	Activation failure due to operational complexity (Delays and Sunk costs due rom late discovery of packaging/legal limitations	Reputational tension between partners from conflicting visibility expectations	Inability to justify continuation or scaling without agreed success metrics	High vulnerability during budget cycles if not positioned as strategic
 	- Ben & Jerry's × TERN demonstrates strong strategic alignment by embedding social activism directly into brand identity and consumer communication - Establish a unified McCain × Lazare narrative with formalized communication rights across packaging, retail, and digital touchpoints	- Disney × Make-A-Wish embeds the partnership into permanent operational routines supported by dedicated infrastructure and measurable impact tracking - Build a recurring in-store activation model with Auchan through branded shelf presence, QR storytelling, and integrated donation mechanics	- Starbucks × Feeding America builds stakeholder trust through transparent impact reporting and clearly communicated contribution mechanisms - Implement transparent donation reporting with on-pack disclosures, live impact dashboards, and annual co-branded impact reports.	- Starbucks × Feeding America demonstrates KPI-driven partnership governance through store-level impact tracking and transparent public reporting. - Implement a shared KPI framework covering social impact, brand equity, and retail performance before retailer rollout discussions	- McDonald's × RMHC demonstrates long-term partnership continuity through strong executive sponsorship and institutional integration - Position McCain × Lazare as a strategic brand platform with cross-functional ownership and visible senior leadership support

EVOLUTION OF SUCCESSFUL PARTNERSHIPS

YEAR 1-2

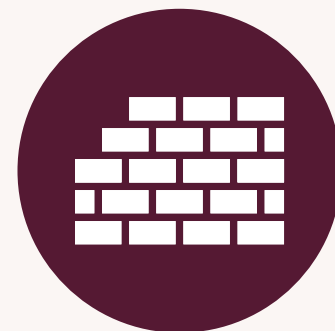

SET-UP PHASE

CHARACTERISTICS

- Basic monetary donations; low-complexity support (events, volunteer days).
- Brand evaluates values alignment with NGO.
- Pilot activations: on-pack visibility, small PR pushes, standalone campaigns.

KPIs

- Awareness baseline of partnership.
- Early NGO reach uplift (volunteers, funds).
- Qualitative brand lift (purpose fit).

YEAR 3-4

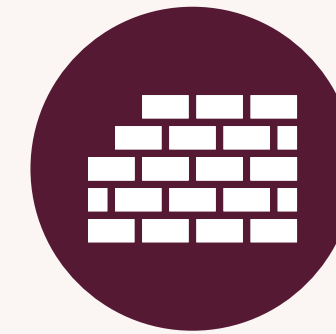

INTEGRATION PHASE

CHARACTERISTICS

- Donations evolve into structured programs (training, skills volunteering).
- Joint narrative creation (emotion-building campaigns).
- Early retailer involvement: POS visibility, pilot cause bundling.

KPIs

- Reach & participation.
- Improvements in emotional brand equity.
- NGO capacity growth (volunteer hours, program delivery).

YEAR 5-6

SCALING PHASE

CHARACTERISTICS

- Multi-stakeholder model: Brand × NGO × Retailer × Community.
- Commercial mechanics added: (Cause-related SKUs, % of sales donations, Co-funded promotions, Customer engagement drives)
- NGO storytelling integrated across brand channels (TV, digital, CRM).

KPIs

- Revenue from cause-related products.
- Retail sell-out uplift during campaigns.
- National visibility & media value.

EVOLUTION OF SUCCESSFUL PARTNERSHIPS

YEAR 7-8

YEAR 9-10

SHARED VALUE PHASE

CHARACTERISTICS

- Partnership becomes long-term brand platform.
- Joint ownership of impact programs (multi-city scale).
- NGO built into ESG reporting and brand purpose.

KPIs

- Strong brand equity lift vs. competitors.
- Measurable social outcomes (reintegration, redistribution, education).
- Retail KPIs: traffic, loyalty, halo effect.

MATURITY PHASE

CHARACTERISTICS

- Institutionalised and self-sustaining partnership model.
- Long-term funds, foundations, or permanent programs created.
- Scalable model replicated across markets.
- NGO gains stable funding; brand becomes category leader in purpose.

KPIs

- Multi-year social impact metrics (lives improved, CO₂ reduced, food redistributed).
- Brand leadership in purpose & trust metrics.
- Employer branding uplift (talent attraction/retention).
- Program ROI: SROI, earned media, sales uplift.

The new approach

Invisible Impact: The current 3-year partnership relies strictly on financial donations, offering zero brand visibility for McCain among consumers.

Communication Gap: Lazare focuses purely on its cause, masking the connection to McCain's "Born to Share" values.

The Opportunity: Transition from isolated charitable events to a structural, commercial partnership involving retailer Auchan.

The Goal: Create a highly visible, permanent CSR halo that benefits Lazare financially while building McCain's brand equity in-store.

McCain × Lazare

Inside a Retail Environment

**Low-Friction Engagement
(Mass Market Reach)**

Product-Sharing & Packaging (“Produit-partage”)

What it is:

- Create a limited-edition co-branded McCain × Lazare pack or sleeve.
- Launch seasonal or permanent McCain × Lazare products. (new potatoe shape)
- Clearly display a fixed donation per purchase (e.g., “0,50 € reversés à Lazare par paquet”).

 High retail sales volume = strong cumulative donations + visibility.

Visibility KPIs

- POS compliance rate (correct pack placement).
- Number of packs printed & distributed.

Awareness KPIs

- % of shoppers recalling the co-branded pack.
- Total € raised for Lazare.
- Variation in sales.

Product-Sharing & Packaging (“Produit-partage”)

NEW PACKAGING

Catches attention at the time of the purchase decision ✓

Lazare

NEW PACKAGING

- ✓ Boost visibility and credibility
- ✓ limited-edition packaging creates urgency + collectability + strengthens retailer partnership
- ✓ Packaging is the most powerful communication asset McCain owns today
- ✓ Number of printed packaging can define amount of donation (if % of revenue on those products)

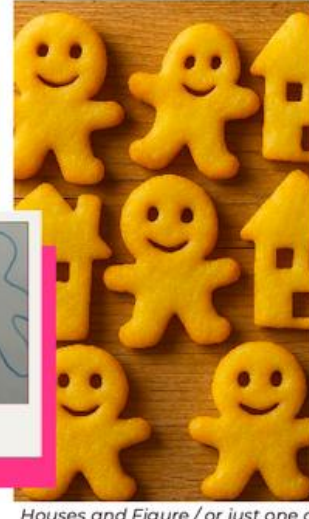

Savourez le plaisir de partager

NEW PRODUCT

NEW PRODUCT

- ✓ Can come back every year at the time of the partnership sponsorship (% of sales go to Lazare for instance)
- ✓ Can be permanent
- ✓ Airfryer friendly to follow trend ? + quick kids' dinner

Targets families ✓

Houses and Figure / or just one of the 2

STICKER ON PACKAGING

STICKER ON PACKAGING

McCain packs feature a **solidarity sticker** indicating the partnership with Lazare. The sticker can communicate:

- that the product is part of the solidarity range,
- that a donation is triggered (ex: "1 product purchased = X€ donated to Lazare"),
- or a promotional mechanic combined with the cause (+1€ donated when buying this pack, % of revenue donated, etc.).

- ✓ Placed directly at the point of purchase, it increases visibility and drives instant consumer understanding
- ✓ Very easy to implement, minimal retailer workload
- ✓ Perfect for communicating partnership storytelling

Catches attention at the time of the purchase decision ✓

POS / PLV Materials

What it is:

- Place co-branded in-store materials:
 - Shelf cards
 - Freezer-door stickers
 - Floor decals
 - Wobblers
 - Endcap displays

 Communicate the donation clearly and visually.

Visibility KPIs

- % of stores displaying all POS materials (compliance).
- Number of POS elements installed.

Awareness KPIs

- % of shoppers who noticed the POS materials.
- Recall of the message (“What was McCain promoting in-store?”)
- Variation in sales.

POS / PLV Materials

ON THE FLOOR RETAIL MEDIA

ON THE FLOOR RETAIL MEDIA

→ Follow the Path concept : Visuals on floor with steps or storytelling to guide customers and inform.

Entering a relatively empty space ✓

Rarely done in France, cuts through visual clutter

Kids will want to step on them and follow

Direct consumers towards chosen area effectively

Could potentially be interactive with a projector (+ floor safe)

FREEZER BRANDING

FREEZER BRANDING

Maximize Stand-Out & Discoverability

Special branding = this purchase has a higher purpose (supporting Lazare's mission)

ENERGY ON-THE-GO

POUR LAZARE
DONNONS LEUR UN TOIT
SOLIDARITÉ EN ACTION
ENSEMBLE, OFFRONS UN FOYER

SHELF BRANDING

SHELF BRANDING

→ Stop Shoppers at the Point of Decision : force shoppers to look at the product area

→ Guide Shoppers to the Core Promotion : visual trail from the entrance of the aisle to the specific products

SOUND DIFFUSION

SENSORY EXPERIENCE

Diffusion in the store of Dinner, clattering, laughing, talking sounds and followed by a voice presenting the partnership and its importance

Create the visual representation of family dinners in the mind of listener

Sound instantly triggers emotional memories

Reinforces McCain's brand meaning (warmth, togetherness)

Elevates the partnership from "donation" to "purpose"

Disruptive for in store advertising ✓

Digital Media & Flyers

What it is:

- Use retailer communication channels to highlight the partnership.
- Include the program in store leaflets, newsletters, digital screens, banner ads, frozen-aisle TVs, etc.
- Share short branded video snippets explaining Lazare's mission.
- Add QR-enabled flyers directing shoppers to Lazare's story.

 Enhance Credibility & Trust

Visibility KPIs

- Total impressions (newsletter + banners + digital screens).
- Newsletter open rate & click-through rate.
- Flyer circulation quantity.
- QR scan rate from printed flyers.

Awareness KPIs

- % recalling the donation mechanic.
- Number of clicks, likes, engagement.
- Variation in sales.

MASS MARKET REACH

Digital Media & Flyers

RETAILER DIGITAL COMMUNICATION

ROOMMATE COMMUNICATION CAMPAIGN

COMMUNICATION IN POSTERS

RETAILER'S DIGITAL COMMUNICATION

Retailer's website

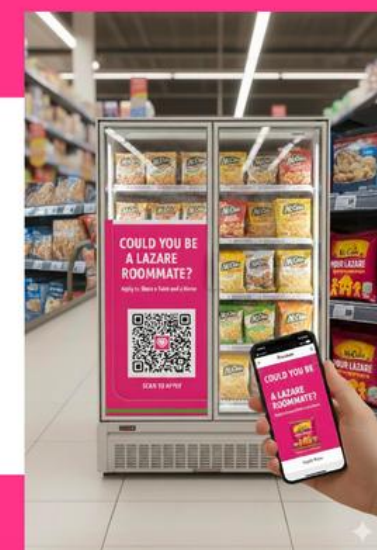

App

Retailer's drive

ROOMMATE COMMUNICATION CAMPAIGN

- ✓ The call to action is centered on applying to become a roommate
- ✓ Link with "sharing a meal together"
- ✓ Bridge between the core concept of cohabitation and Mc Cain idea of sharing

COMMUNICATION IN CATALOGS / POSTERS

- ✓ Good for the use of storytelling and informing consumers
- ✓ Promotion through the retailer's channels
- ✓ Creation of intent: the shopper is already planning the purchase before coming
- ✓ WIN WIN WIN : For the 3 parties presented

MASS MARKET REACH

Digital Media & Flyers

RETAILER DIGITAL COMMUNICATION

CO BRANDED SOCIAL CONTENT

RETAILER'S DIGITAL COMMUNICATION

Digital Coupons With Purpose

- Push a coupon that reads: "-1€ immédiatement — et +1€ offert à Lazare."
- This is highly attractive to shoppers and retailers.

Sponsored Search Results ON RETAILER APPS

- "Partenariat solidaire McCain x Lazare" appears when people search "frites", "surgelés", or "repas".
- This is the #1 conversion driver in digital retail media

Homepage Takeover for Homeless Day.
Add retailer integrations such as:
Auchan homepage takeover, Carrefour Links storytelling module, Leclerc Drive hero banner

CO BRANDED SOCIAL CONTENT

Retailers favor brands that actively drive customer traffic to their stores or digital platforms. ✓

- ✓ Mutual Traffic Generation (Shared Growth)
- ✓ Enhanced Credibility & Trust
- ✓ Maximum Retailer Support (Win-Win)

McCain × Lazare

Inside a Retail Environment

**High-Involvement Experiences
(Deep Emotional Connection)**

Donation Mechanic

What it is:

- Introduce donation prompts directly at checkout:
 - Round-up donations
 - Add-on micro-donations (+0,50€)
- Some retailers can add matched donations upon meeting targets.
- % of revenues of chosen product and period go to Lazare

 Much larger impact than a one-time corporate donation, engages shoppers by making them part of the impact

Visibility KPIs

- Number of shoppers exposed at checkout.
- Number of receipts carrying Lazare messaging.

Awareness KPIs

- % aware of the donation option.
- Recall of “round-up” or “+0,50€” messaging.

Additional KPIs

- Total € donated via checkout.
- Opt-in rate (% of shoppers contributing).
- Variation in sales

DEEP EMOTIONAL CONNECTION

Donation Mechanic

ROUND-UP AT CHECKOUT

% OF SALES GO TO LAZARE

ROUND-UP AT CHECKOUT × MCCAIN

McCain could sponsor "Cette semaine, les micro-dons en caisse soutiennent Lazare — avec McCain."

Retailers appreciate:

- Positive CSR communication
- Increased participation in donation campaigns.

- ✓ Effortless Participation & Low Barrier to Entry
- ✓ KPI : Rounding Conversion Rate, total donations, Total Volume of Unique Donors
- ✓ Engages 100% of customers processing a payment, maximizing exposure for the McCain x Lazare partnership.
- ✓ Low-cost, plug-and-play solution that uses existing POS technology, ensuring easy and rapid retailer adoption.

Contribution from 3rd parties to support Lazare with Mc Cain ✓

% OF SALES GO TO LAZARE

McCain identifies a selection of products (or a specific limited-edition range) for which a **fixed percentage of sales generated during a defined promotional window is automatically donated to Lazare.**

- ✓ Drives purchase intent, turning everyday shopping into meaningful collective action
- ✓ Much larger impact than a one-time corporate donation, Engages shoppers by making them part of the impact
- ✓ Strong brand image uplift & CSR credibility, Fully measurable, KPI-friendly, transparent
- ✓ Works across all channels (store + drive + e-commerce)

In-Store Cause Sampling Events

What it is:

- Host “Lazare Story” sampling corners in major retailers (Auchan).
- Provide free hot fries while McCain staff and Lazare residents volunteer together.
- Have Lazare rommates storytell and call for action .

-  Encourage social sharing though human connection and consumer empathy.

Visibility KPIs

- Number of samples distributed.
- Volunteer hours logged.

Awareness KPIs

- % of participants who can explain Lazare’s mission after visiting.

Additional KPIs

- Social impressions from event photos and videos.
- Retailer manager evaluation of event quality.

DEEP EMOTIONAL CONNECTION

In-Store Cause Sampling Events

DIGITAL STORIES IN STORE

IN STORE EVENT/EXPERIMENT

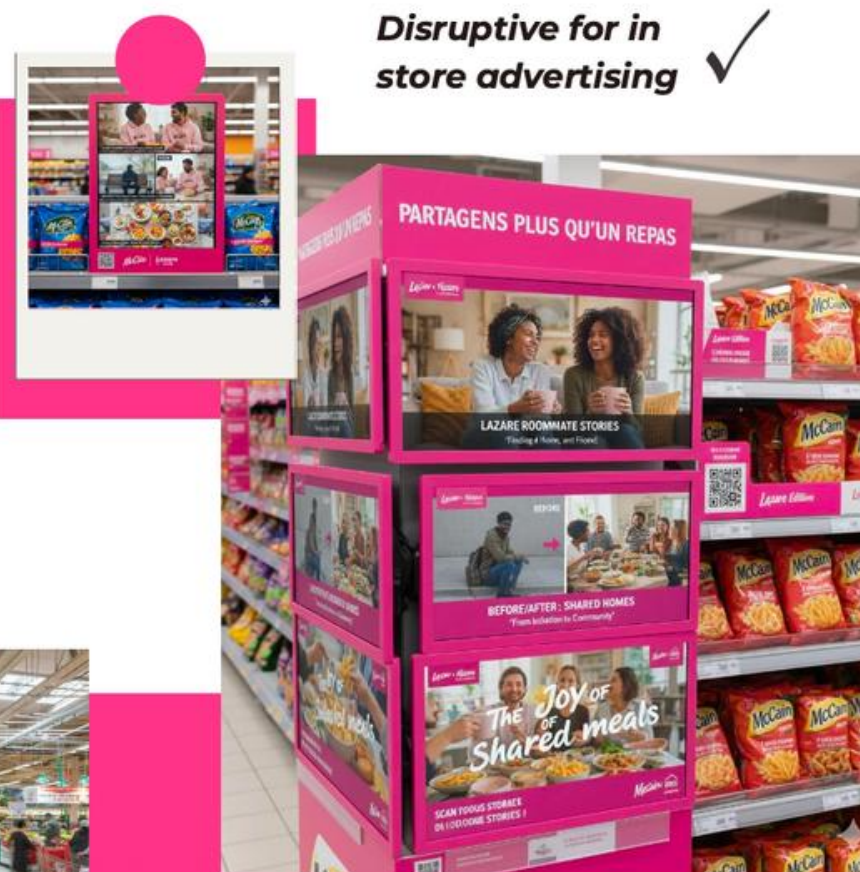

DIGITAL STORIES IN STORE

At the shelf: small screens that play:
Lazare roommate stories

- “Before/after” cohabitation videos
- Warm imagery of shared meals

Disruptive for in store advertising ✓

IN STORE EVENT/EXPERIMENT

- ✓ Engaging people
- ✓ Corner is hosted by an actual Lazare roommate
- ✓ Activities : fun card quiz with questions about cohabitation

Disruptive In-Store Interaction

What it is:

- Hidden tickets inside packs trigger experiential rewards or direct donations when scanned
- A disruptive in-aisle installation where pressing a button triggers a 0.10€ donation from McCain
- Family-focused engagement where uploaded children's drawings of "shared meals" trigger donations, creating vast User Generated Content (UGC).

Driving engagement and shareability through gamification.

Visibility KPIs

- Number of time the button has been pressed.
- Correlation between sales and press of button.
- Variation in sales
- Number of drawings gathered

Awareness KPIs

- % of participants
- Approval rates

Disruptive In-Store Interaction

GOLD TICKETS

BUTTON KIOSK

COLORING TO DONATE

GOLD TICKETS IN PRODUCTS

Selection of McCain products includes **golden winning tickets** hidden inside the packs.

- **Rose-gold tickets** feature a QR code: when scanned, McCain automatically donates X € to Lazare on the shopper's behalf.
- **Golden tickets** offer real prizes connected to sharing, meals and togetherness (e.g., a chef-prepared family dinner, a cooking workshop, a gourmet weekend, or a family activity)

- ✓ Highly attractive & engaging for shoppers + Strong emotional appeal (Charlie & the Chocolate Factory effect)
- ✓ Does not require monetary contribution from shoppers but High engagement as it requires an action from the shopper
- ✓ Easy to implement with low retailer workload
- ✓ Creates a memorable brand experience

Inspired from Charlie and the Chocolate Factory

BUTTON KIOSK

A **standalone in-aisle activation** where shoppers press a button to trigger an automatic €0.10 donation made by McCain to Lazare. A digital counter at the top displays the total amount raised in real time.

- ✓ A simple, fun and visible activity engaging customers while not requiring them to make themselves monetary donations
- ✓ High visibility & strong stopping power, KPI-friendly & fully measurable
- ✓ The installation is placed near the frozen aisle to maximize visibility and link naturally to McCain products.
- ✓ Easy to implement in-store, Low retailer workload

Innovative & disruptive ✓

COLORING TO DONATE

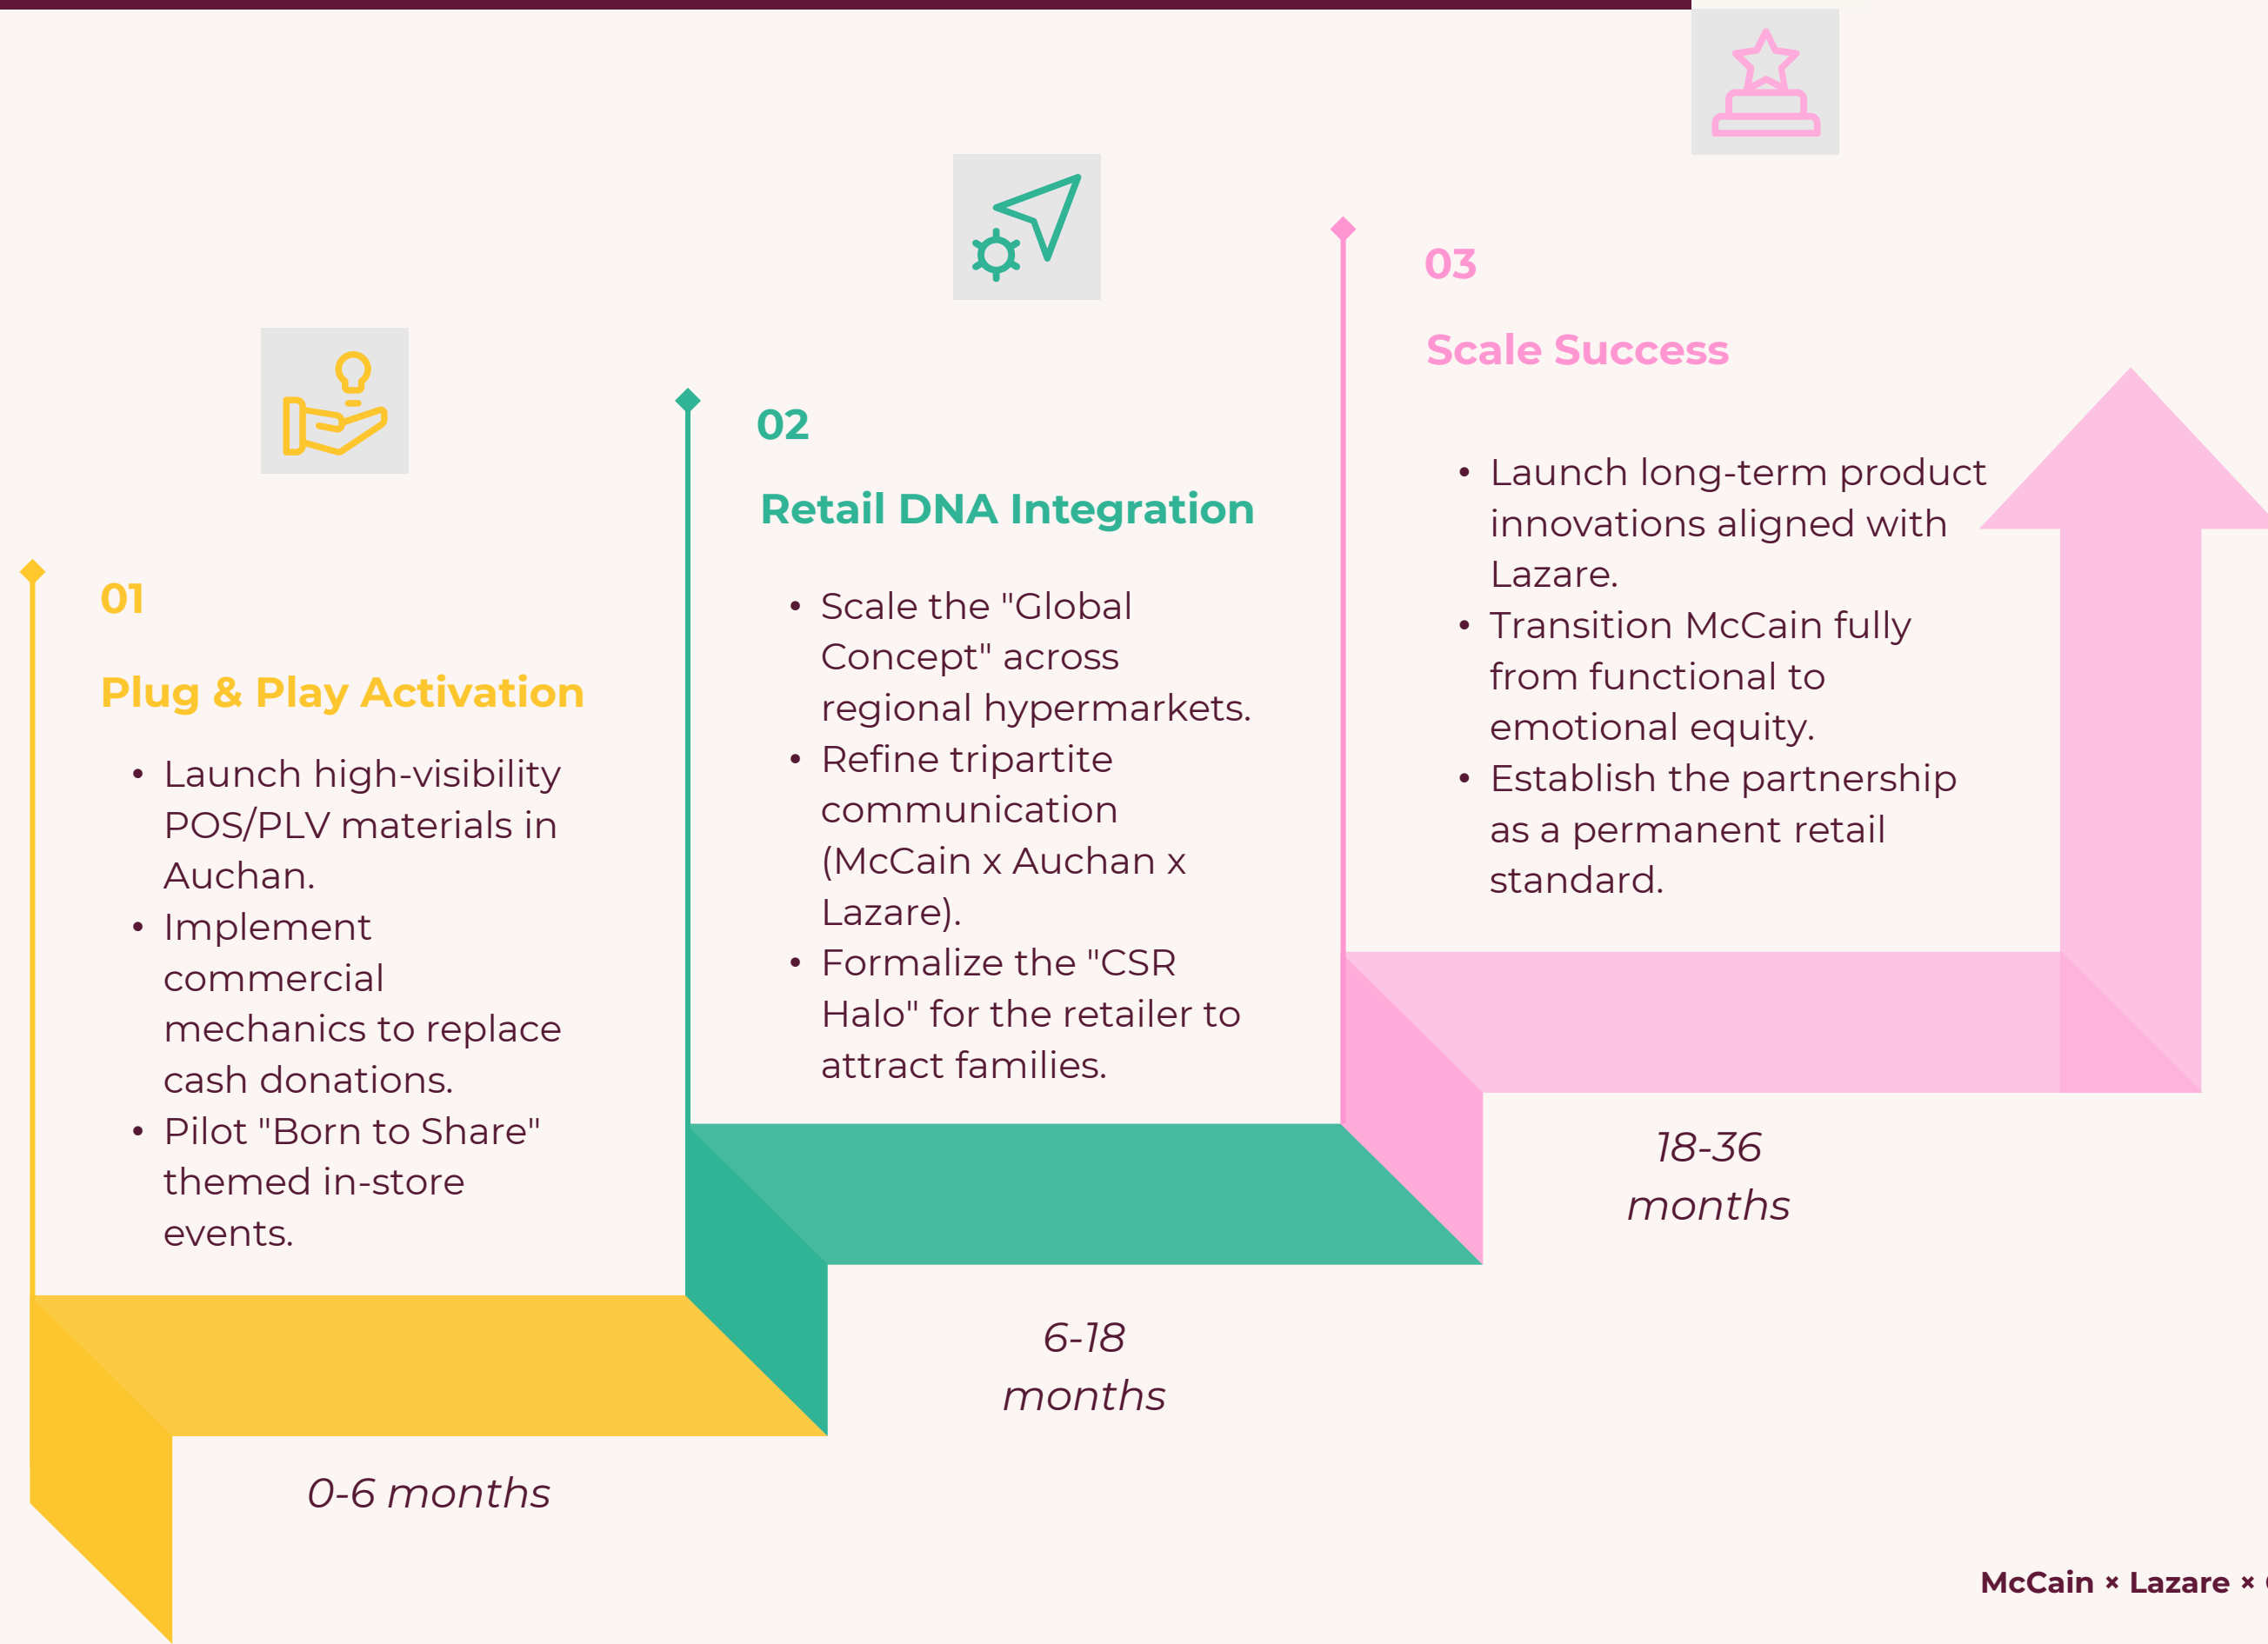

A **printable McCain-branded coloring** sheet available in-store or via QR codes

- Each drawing includes a QR code that families scan to upload their child's colored page.
- Every upload automatically triggers a donation of X€ from McCain to Lazare, helping fund

- ✓ Targets families, creates involvement and engagement + fun for kids
- ✓ Easy to implement & low retailer workload
- ✓ Can be in addition to another partnership campaign (golden tickets, button kiosks, % of revenue donated etc)
- ✓ Drawings and coloring can be shared by Mc Cain with KPIs

3 -YEAR IMPLEMENTATION PLAN

Key Takeaways

From Donations to Strategic Co-Creation

Win-Win-Win Model

A tripartite partnership where McCain, Lazare, and Auchan each gain clear, measurable value.

Retail-First Strategy

Shifting from isolated charity events to embedded, visible in-store activations at the point of purchase.

Emotional Brand

Moving McCain from functional product positioning to purpose-driven storytelling through "Born to Share."

Equity

Modular Vision Board

A flexible toolkit of scalable concepts, ready to adapt to the direction of retailer negotiations.

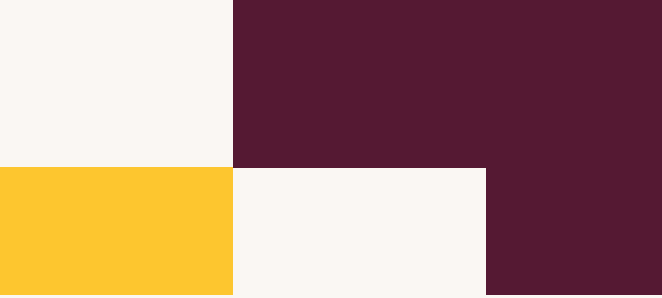

The partnership is no longer about writing a cheque, it's about building something together.
